

ENCLOSURE 5

AZ.: 23 SRGR 2023 CO07

Self-declaration: Overview of subcontractors / resource providers

Please note: This declaration must be filled in and signed in every case! If you will not be operating with a subcontractor / resource provider, please cross the box at the beginning of the declaration, sign it and enclose the declaration in your application to tender. Failure to submit a completed form means that your application will not be considered.

- ☐ I am applying as an individual contractor who operates alone and will not draw on the support of a subcontractor / resource provider in performance of the contract. The rest of this form is therefore of no relevance in my case.

- ☐ I will be working with the following company/companies in its/their role as subcontractor / resource provider in order to perform the contract.

These subcontractor / resource provider confirm in enclosure 6 that they will provide the needed resources for the performance of the contract.

For the case that these subcontractors / resource providers are unable to provide the services envisaged, I shall undertake to engage other subcontractors / resource providers, who – as a minimum – possess an equivalent suitability / an equivalent profile as the persons originally envisaged.

The replacement of subcontractors / resource providers shall be approved by the contracting entity. The contracting entity shall reserve the right to check the suitability/profile of the replacement subcontractors / resource providers and – as appropriate – file an objection. For this purpose, the contractor shall provide the contracting entity with evidence of suitability. If approval is not granted on this basis, then a new subcontractor / resource provider shall be found.

Please use the following section to show the arrangements concerning companies that would, according to your plans, be contributing to contract performance. Enter the required details for each company in the tables below:
