

CBA SUMMER SCHOOL

Cost-Benefit Analysis of Investment Projects

9-13 September 2024

Milan, Italy

The course offers an intensive and **interactive learning experience focused on CBA as a tool supporting the decision-making** process of public investments. Deep dive into:

Principles & Methods of CBA (financial, economic, sensitivity and risk analysis)

Sectoral Applications (typical benefits and most adequate evaluation techniques)

Real-life Case Studies (practice and discussion on a real CBA).

Experience interactive **workshops**, real case **exercises**, and **expert-led** lectures.

Choose from three participation formats:

- 1 Full Course: General Principles & Sectoral Application (9-13 Sep)
- 2 Module I: Principles & Methods (9-10 Sep)
- 3 Module II: Sectoral Application (11-13 Sep)

Faculty

Lecturers have longstanding experience designing, implementing and reviewing CBA of infrastructure projects. Some of them have directly contributed to shaping international standards, including the European Commission's Guide to Cost-Benefit Analysis of Investment Projects and the Economic Appraisal Vademecum 2021-2027.

Key dates

30 April 2024: Early bird deadline

16 June 2024: Registration deadline

Ideal for public decision-makers, researchers, and practitioners.
